

(3) Remarks

Reconsideration and allowance of claim 1, the sole claim remaining under consideration in this application, are respectfully requested in view of the following remarks.

This paper adopts the suggestions made by the examiner and is believed to place the application in condition for allowance.

Claim 1 was objected to for an informality. The spelling of “texture” has now been corrected.

Claims 2 and 3 have been canceled to obviate the rejection for indefiniteness applied against those claims.

Accordingly, in response to the examiner’s suggestions, which are appreciated, the claims are now definite and commensurate in scope with the improvement applicants have been arguing. Accordingly, allowance of the sole remaining claim is believed in order and such action is earnestly solicited.

If any matters remain outstanding, the examiner is invited to call applicants’ representative at the number listed below.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Thaddius J. Carvis". The signature is fluid and cursive, with a large, stylized "J" and "C".
